Earth Week 	Find an article about an environmental problem, noting if any actions have been taken to solve it.	Find words about the environment and recycling in the newspaper, then record the spelling and meaning of each word.	Estimate the height and weight of the newspapers your class used this school year by measuring today's paper.	Look for articles about the area's landfill. Write directions from several sites in town for a waste hauler to use.	Look through the ads for recyclable items. Find out if these can be recycled in your community.

	Think of a way to help others in your community and post your plans in the newspaper.	Create a time capsule which includes newspaper articles that tell the most about our lives in 2024.	Identify the role math plays in articles about science, technology or business.	Missouri has many rivers, streams and lakes. Find stories about as many different ones as possible and then map the locations.	Be a citizen scientist this summer. Observe and record things that you see in the journalistic style.	Enjoy summer and keep learning with your newspaper!
