

# Scientists and Inventors

## 2023 Newspapers in Education Series

Written by Carolyn Mueller | Illustrated by Nicole Hartfelder

sponsored by

Join us this year to enjoy a short story in each chapter about an American scientist or inventor that changed the world. Some of them made small changes – furniture that serves more than one function. Some of them made big changes – improving the way we grow the food we eat. Some of them are famous – the Wright Brothers and John Deere. Some of them will probably be new names – Lyda D. Newman and George Alcorn, Jr. All of the stories emphasize the lives of normal people who found a problem, looked for a solution, and made their dreams a reality. The chapter exercises will encourage students to find inspiration for their own discoveries in their local newspaper. The scientists and inventors are from all over the country so the chapters will resonate with newspapers and classrooms nationwide. This series will be offered free of charge to newspapers for publication on January 1, 2023 & ending on June 30, 2023. Visit [mo-nie.com](http://mo-nie.com). Use the code: **scienceinvent** to download the series.
