

Scientists and Inventors

Written by Carolyn Mueller | Illustrated by Nicole Hartfelder

2023 Newspapers in Education Series Now Available

The Missouri Press Foundation and National Newspaper Association Foundation are offering a new original free series to newspapers across the country for publication. This year, readers will enjoy a short story in each chapter about an American scientist or inventor that changed the world. Some of them made small changes – furniture that serves more than one function. Some of them made big changes – improving the way we grow the food we eat. Some of them are famous – the Wright Brothers and John Deere. Some of them will probably be new names – Lyda D. Newman and George Alcorn, Jr. All of the stories emphasize the lives of normal people who found a problem, looked for a solution, and made their dreams a reality. The chapter exercises will encourage students to find inspiration for their own discoveries in their local newspaper. The scientists and inventors are from all over the country so the chapters will resonate with newspapers and classrooms nationwide. This series will be offered free of charge to newspapers for publication on January 1, 2023 and ending on June 30, 2023. Visit mo-nie.com and use the code: **scienceinvent** to download the entire series.
